

25

Date : 2023 March 21

Time : 10:00 Am to 11:30 Am

Venue : Oral pathology seminar room.

* Minutes of Meeting.

* Discussion was done regarding following topics.

* Ethical Considerations was verified.

* Ethical Clearance was given to the following topics.

K.priyadhar :- "Determination of reliability between Genial tubercle and Menton in mandibular asymmetry on CBCT Imaging".

K.SriKavya :- "Accuracy of mesiodistal tooth measurements obtained from Traditional model, Stone model scan and Intraoral scan".

S.Sonika marikisan :- "Accuracy of 3D scanned full arch dentition versus 3D printed models generated from various 3D printers using linear measurements".

K. Sai Sri ganesh pawankumar :- "Evaluation of the effect of different surface treatments on bond strength of H-Impact heat cured acrylic resin at PEEK polymer interface - A comparative invitro study".

27

Date:- 07/04/2023

Oral Medicine and Radiology:

- 1) B.N.S.V. Sowmya - Determination of gender accuracy using orbital index in CBCT - a radiographic forensic study.
- 2) R. Chandini - Frequency of nasal septal deviation and concha bullosa and their co-relation with maxillary sinusitis - A CBCT study.

Oral Maxillofacial surgery:

- 1) Pappula Sai Shantha Swaroop Basu - Evaluation of Surgical difficulty of impacted maxillary canines - A CBCT study.
- 2) Manupati Vairitha - Comparison of Single miniplate Vs V plate in mandibular angle fractures - a prospective study.
- 3) S.N.V. Siva Dilip Chaitanya - Comparative Evaluation of two miniplates Vs 'A' plate in subcondylar fractures of mandible - A prospective study.

Periodontics:

- 1) Pinipe Christina - Comparative in-vivo study between Reverse Conical Neck and Standard Neck Implants & its effects on crestal bone morphology & Peri-implant soft tissue collar; A Randomized Clinical Trial.

28

2) P. Neelima

- A comparative evaluation of the efficacy of amnion chorion membrane and collagen membrane with demineralized bone graft in intrabony defects - A split mouth Randomized clinical Trial.

Prosthodontics

1) Swathi M -

Evaluation of effect of glazing on marginal and internal fit of 3 commercially available CAD/CAM milled monolith zirconia crowns - A comparative invitro study.

2) K. Sai Sai Ganesh Pavan Kumar - Evaluation of the effects of different surface treatments on bond strengths of hi-impact heat cure acrylic resin at peak polymer interface - A comparative invitro study.

3) S. Sai Sai Sowmya - A Comparative evaluation of the marginal and internal fit of Zirconia crowns fabricated using two intraoral scanners and lab scanner - An invitro study.

Oral Maxillofacial Pathology & Microbiology: (29/3/23)

1. P. Ajay Yadav -

Immunohistochemical Evaluation of p63 Expression in Oral Squamous Cell Carcinoma, Pharyngeal and Thyroid Carcinomas.

2. A. Sudhakar -

Immunohistochemical Evaluation of HIF-1 α Expression in Oral Squamous Cell Carcinoma, Pharyngeal and Thyroid Carcinomas.

Orthodontics :

- 1) K. SRI KAVYA - "Accuracy of Mesiodistal tooth measurements obtained from Traditional model, Stone model Scan and Intraoral scan."
- 2) K. PRUDHVI - "Determination of reliability between Genial tubercle and Menton in mandibular asymmetry on CBCT imaging."
- 3) S. Sonika Mani Kiran - "Accuracy of 3D scanned full arch dentition versus 3D printed models generated from various 3D printers using linear measurements"

Pedodontics :

- 1) B. Ganeswar - Comparative clinical and radiographic evaluation of ciprofloxacin, metronidazole, Zinc oxide eugenol paste (CME) vs Chloramphenicol, tetracycline, Zinc oxide eugenol (C+E) as obturating material in primary molar pulpectomy - An in vitro study.
- 2) G. Likhitha - A Comparative evaluation on pain perception and anxiety level in pediatric patients using electronic dental anesthesia and conventional local anesthesia during inferior alveolar nerve block administration - A split mouth clinical trial.
- 3) K. Shivani - A Comparative evaluation of efficacy of intranasal dexmedetomidine and inhaled nitrous oxide-oxygen as sedative agents for extraction of primary teeth in children : A split mouth randomized controlled clinical trial.

30

Conservative & Endodontics:

- 1) MD. Abdul Khadar Nawaz - "CBCT evaluation of obturation quality in Multirrooted teeth using Two sealers by Different Obturation Techniques - An Invitro Study."
- 2) P. Likhitha - "Comparative evaluation of Remaining Dentin Thickness post instrumentation with three Different Ni-Ti Rotary File systems using CBCT: An Invitro Study."
- 3) N. Aswini - "Accuracy of Different Electronic Apex locators compared with CBCT Images in determining the perforation of Various diameters: An In-vitro study."

Attenders:

Dr. K. Rajalakshmi

K. Raja lakshmi;

Dr. Hari Krishnam Raju

Dr. Suikanth Damra

Dr. K. Panya

Dr. N. Girindraj Kumar

Dr. B. Ramesh

Date: 9th May 2024

Time: 2:00 to 4:00 pm

Venue: Ortho Seminar Room

* Minutes of Meeting

* Discussion was done regarding the following topics:

* Ethical consideration was verified

* Ethical clearance was given to the following topics:

Pedodontics:

① Title :- Comparative evaluation of premix zinc oxide eugenol and endoflas as obtunding materials in primary molars using CBCT: a 3D radiographic analysis

Presenter: Dr. Datta Sai Sivani

② Title :- Evaluation of antimicrobial efficacy of photodynamic therapy, endoactivation and normal saline irrigation in infected primary molars: A comparative randomized controlled trial.

Presenter: Dr. Kumar Sai kishore

③ Title :- Comparison and evaluation of clinical and radiographic performance of CAD-CAM zirconia crowns and prefabricated zirconia crowns in primary molars: A split mouth study.

Presenter: Dr. Sindhu Chinata

32

Orthodontics:

- ① Title: Validity of Indian board of orthodontics - Orthodontics index in assessing complexity of treatment and standard of treatment outcome among various malocclusion groups.

Presenter: Dr. Anessa Safiya

- ② Title: CBCT Assessment of alveolar bone thickness and its relationship with lower anterior teeth position and angulation in true and pseudo deepbite

Presenter: Dr. Anishavalli Anumallasetty

- ③ Title: Morphological and Positional assessment of condyle in facial asymmetry patients with or without temporomandibular disorders: A CBCT study.

Presenter: Dr. Desu Venkata Naga Durga

Attendees:

Dr. K. Ramya

Dr. R.V.S.M. Raghu Ram

Dr. H. Lakshminam Raju

Dr. K. Raja Lakshmi

Dr. B. Rajendraprasad

Dr. J.T. Pavitra

Date: 10th June 2024

Time: 2:00 to 4:00pm

Venue: Ortho Seminar Room

* Minutes of meeting

* Discussion was done regarding following topics

* Ethical consideration was verified.

* Ethical clearance was given to the following topics.

Conservative and Endodontic Dentistry

① Dr. Darsai Sahithi: Comparative evaluation of various irrigation solutions in removal of smear layer: An In vitro Study.

② Dr. Darsai Sushmitha: Comparative evaluation of pericervical dentin preservation and flexural fracture resistance of root canal treated teeth with reciprocating endodontic file systems. An In vitro study.

③ Dr. MK Vishal Kumar: Evaluation of remaining obtunding material of endodontically treated teeth after retreatment with different retreatment file systems: An In vitro CBCT study.

Prosthodontics

① Dr. Mandadi Nikhil Reddy: Impact of surgical techniques on crestal bone level and microbial colonization around implants site: A Comparative In vivo study.

34

② Dr. Yesikalapudi T.S.N Manjusha: Effect of different surface treatments and thermocycling bond strength of polyether ketone and titanium attachments matrix housing in overdenture: An in vitro study

③ Dr. Pannula Peamela: Evaluation of effect of thermal aging on colour stability of two different commercially available shaded and non shaded monolithic zirconia: A comparative in vitro study

Periodontics:

① Dr. & Mrs. Aikhila: Comparative evaluation of soft tissue parameters and crestal bone changes around implants in sites with thin gingival phenotype using advanced platelet rich fibrin (A-PRF) versus connective tissue graft (CTG) - A randomized clinical trial.

② Dr. Tyothi Peasanna Pavtala: Evaluating the efficacy of application of A-PRF on implant stability and marginal bone levels: A Randomized clinical trial.

Dental Medicine and Radiology:

① Dr. Soudi Purna: Morphometric analysis of nasopalatine canal and its co-relation with dentition status among males and females - A CECT study.

Dental & Maxillofacial pathology & Microbiology:

① Dr. Guummalla Haresh Sree: Immunohistochemical evaluation of p-catenin and E-cadherin expression in tobacco and alcohol habit and non-habit associated with tongue carcinoma.

- ② Dr. Pappala Harshath Kumar: Immunohistochemical evaluation of p-catenin & HPV expression in tobacco and alcohol habit and non habit associated squamous cell carcinoma of buccal mucosa.

Oral & Maxillofacial Surgery:

- ① Dr. Segani Vasavi: Effectiveness of Hyaluronic acid with bone graft versus platelet rich fibrin with bone graft for bone regeneration in the mandibular third molar, extracted socket.
- ② Dr. Anireddyalluri Akhil Siva Pavan Reddy: Comparative evaluation of miniplate versus keyhole plate in osteomyelitis of mandibular subcondylar fractures - A prospective CBCT study.
- ③ Dr. V. Osborn Emmanuel Raj: Evaluating the efficacy of forceps reduction versus anatomic reduction using screw-wise traction for open reduction - internal fixation in mandibular fractures.

Attendees:

Dr. S. Harikrishnam Raju

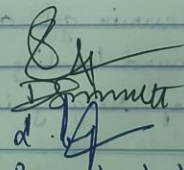

Dr. D. Seikanth

Dr. K. Ramya Reddy

Dr. K. Rajalakshmi

Dr. M. Anupama

Dr. B. Lavanya Neelima

K. Raja Lakshmi

26

M. Swathi: "Evaluation of effect of glazing on marginal and internal fit of 3 commercially available CAD/CAM milled monolith Zirconia Crowns - A Comparative invitro study".
