

G.S.L DENTAL COLLEGE & HOSPITAL

(Promoted by G.S.L. Educational Society, Regd.No.546/1999)

7.1.7 The institution has Divyangjan -friendly, barrier-free environment in the campus

GSL Dental College is dedicated to establishing an inclusive, Divyangjan-friendly, and barrier-free environment. In order to facilitate simple mobility throughout the campus, the college was designed with accessibility in mind, including elevators, wide doorways, and ramps. To meet the various needs of people with disabilities, specialized facilities are offered. To improve the educational experience, the college also provides learning aids, assistive technology, and support services.

The following are the facilities provided in GSL dental college:

BUILT ENVIRONMENT WITH RAMPS/LIFT FOR EASY ACCESS

By providing well-designed ramps and lifts, GSL Dental College guarantees that people with disabilities can fully access every area of the campus. People with mobility issues can easily use the wide, smooth pathways provided by the ramps, which are positioned strategically at important entry locations. To guarantee safety, these ramps are built with non-slip surfaces. Additionally, all multi-story buildings include elevators, which allow people with mobility challenges to easily access the top floors. The lifts are accessible and user-friendly for people with a variety of disabilities since they have broad doors, and simple buttons.

DISABLED- FRIENDLY WASHROOMS

Accessible restrooms that are suitable for people with disabilities are available at GSL Dental College. Wheelchairs and other mobility aids can fit in these roomy restrooms because of their broad doors. Support bars are positioned adjacent to sinks and toilets inside, making it safe and simple for people with physical limitations to use. All fixtures are placed at reachable heights, and the arrangement permits mobility. Furthermore, the restrooms are kept up and positioned thoughtfully throughout the campus, guaranteeing that people with disabilities always have access to hygienic and useful facilities. The college's dedication to creating an inclusive, barrier-free environment is reflected in this well-thought-out design.

DISPLAY BOARDS AND SIGNPOSTS

The college also provides display boards and signposts for proper navigation, guidance and orientation for disabled people.

ASSISTIVE TECHNOLOGY AND FACILITIES FOR PERSONS WITH DIVYANGJAN- ACCESS WEBSITE

To improve accessibility for blind people, **NVDA (Non visual Desktop Access)** is a powerful technology. It has strong capabilities for interacting with different applications and systems. Braille output and speech are two ways that NVDA helps blind people interact with computers.

Minimum System Requirements

Operating Systems: all 32-bit and 64-bit editions of Windows 8.1, Windows 10, Windows 11, and all Server Operating Systems starting from Windows Server 2012 R2

Both AMD64 and ARM64 variants of Windows are supported

Note 32-bit operating systems are no longer under active support

Note that Windows 8.1 and Windows Server versions older than 2022 are no longer under active support

At least 150 MB of storage space.

Recommended System Requirements

Operating Systems: 64-bit editions of Windows 10, Windows 11, and Window Server 2022

Both AMD64 and ARM64 variants of Windows are supported

At least 150 MB of storage space

At least 4 GB of RAM

In our college, NVDA app is installed in our computers supporting Windows 10 pro and version 22H2

PROVISION FOR ENQUIRY AND INFORMATION

To make sure that people with mobility challenges can freely travel the campus, GSL Dental College offers wheelchair assistance. A good number of wheelchairs are provided by the college and are easily accessible for use at strategic points like the main entrance, academic buildings, and other necessities. In addition to the wheelchair facilities, the institution has professional support workers that help people move to other areas. Additionally, the institution makes sure that these wheelchairs are always accessible and well-maintained, which helps people with disabilities move around more easily and feel more independent. This service demonstrates GSL Dental College's dedication to establishing a welcoming and easily accessible environment.
