GSL Dental college Hospital

(Promoted by G.S.L. Educational Society, Regd.No.546/1999)

7.1.8 Describe the Institutional efforts/initiatives in providing an inclusive environment i.e., tolerance and harmony towards cultural, regional, linguistic, communal socioeconomic and other diversities (within 200 words)

In an effort to create a country of morally upright young people, the institution plans and executes a number of events to foster an atmosphere of moral, cultural, and spiritual values among its faculty, staff, and students. In order to cultivate the mental and physical health.

Commemorative days are held on campus with the initiative and assistance of the administration to foster a sense of social harmony and unity in addition to providing entertainment and enjoyment for the teachers and students who have religious sentiments.

The fact that students from various castes, religions, and geographical areas are able to study together without facing any discrimination is proof that the school values the equality of all cultures and traditions. Although the institution's sociocultural background is varied, and geographical, cultural, linguistic, socioeconomic, and other diversity is not something we are intolerant of.

The college and its teacher and staff jointly celebrate the cultural and regional festivals, like New-year, teacher's day, orientation and farewell program, Induction program, oath, plantation, Women's day, Yoga day, and also festivals like, Ganesha Festival. Motivational lectures of eminent persons of the field are arranged for all-round development of the students for their personality development and to make them responsible citizens following the national values of social and communal harmony and national integration. Besides academic and cultural activities, we have built up many strong infrastructures for a variety of sports activities for the physical development of the students. In this way the institute's efforts/initiatives in providing an inclusive environment for everyone with tolerance and harmony towards cultural, regional, linguistic, communal socioeconomic, and other diversities.
