**ANNUAL AWARENESS PROGRAM ON CODE OF CONDUCT**

GSL Dental College had conducted an “Annual Awareness Program on Code of Conduct “ on november 25<sup>th</sup> ,2023. This Program aimed to make sure that staff, instructors, and students are aware of and abide by the institution's legal requirements, ethical standards, and behavioral expectations.

Within the campus community, the program seeks to foster a culture of professionalism, honesty, and respect. It addresses important topics including upholding confidentiality, treating patients ethically, academic integrity, and creating a welcoming and safe atmosphere.

Senior faculty members and subject matter specialists often offer insights into the Code of Conduct during interactive workshops, seminars, and training sessions. It also included debates and case studies to illustrate how ethical principles are used in practical situations. To guarantee that the expectations are understood, regular evaluations and feedback systems are included.

Constant reminders via newsletters, digital content, and posters keep moral values at the forefront of day-to-day operations. The program's ultimate goals are to raise knowledge of ethical obligations, decrease misconduct, and foster a supportive academic and clinical environment. GSL Dental College enhances its standing as an institution that produces capable and morally upright dental professionals by upholding the Code of Conduct.

## **PROFESSIONAL ETHICS PROGRAM**

The basic values and norms that direct dental professionals' conduct in their practice are the subject of the **“Professional Ethics and Etiquette in Dentistry”**. A lecture on this was given on June 10<sup>th</sup> 2023 at GSL Dental College. It emphasized the significance of maintaining the highest ethical standards, protecting patient privacy, and creating trust between the patient and the dentist. The course covered a number of important subjects, including as getting informed consent, upholding patient rights, professional responsibility, and making moral decisions in clinical settings.

The importance of keeping a professional appearance, being on time, and communicating effectively are also emphasized in the lecture as ways to build a good reputation in the dental industry. The value of cultural awareness, empathy, and honesty in dealing with patients from different origins is taught to students.

The presentation also discusses the importance of professional etiquette, including communication skills, cultural sensitivity, and preserving a polite and respectful workplace culture in the dental office. Students are taught dispute resolution techniques while upholding moral standards, and they are encouraged to comprehend the ethical issues they might face in their professional lives. By the end of the course, students have a thorough awareness of how dental professionals' reputations are shaped by their ethics and etiquette, as well as how these factors affect patient satisfaction and trust in the healthcare system as a whole.
