WORLD HEALTH DAY – 7th APRIL 2022

We the NSS Volunteers of GSL Dental College conducted awareness programs at ZP high school, Rajanagaram on the occasion of **WORLD HEALTH DAY**. As per WHO, this year's theme is "**OUR PLANET, OUR HEALTH**". Keeping this in mind we have raised awareness about the correlation between climate change and human health. We kickstarted the program by showing videos relevant to the theme and educated students about different types of pollutions, their causes, effects and preventive measures to be taken from their side. We also emphasized the importance of mental health and conducted a meditation session to promote mental peace and stability.

No of volunteers participated: 20

No of beneficiaries: 180
